## 1.4 Media for the Installable Units of SAP NetWeaver 2004s SR1

Before implementing an IT scenario, you need to first analyze which installable units are required for its implementation. The Master Guide and the Upgrade Master Guide provide you with the list of mandatory and optional installable units for each IT scenario and scenario variant.

The installable units of SAP NetWeaver 2004s SR1 are listed in the following sections: *Media for SAP NetWeaver Usage Types*, *Media for SAP NetWeaver Standalone Engines*, and *Media for SAP NetWeaver Clients*.

When installing or upgrading a SAP NetWeaver system (host) follow the instructions in the *Installation Guide – SAP NetWeaver 2004s SR1* or *Upgrade Guide – SAP NetWeaver 2004s SR1*, for details. Start with section *Initial Media*, either for installation or for upgrade.
